

DATE	SPEAKER
Sep 27	Jennifer Murphy, Department of Chemistry, University of Toronto <i>"Biosphere - Atmosphere Exchange of Reactive Nitrogen"</i>
Oct 11	Evan Fraser, Department of Geography, University of Guelph <i>"Climate Change and Global Food Production - factoring socioeconomic dimensions into biophysical models"</i>
Oct 25	Hung Lee, SES, University of Guelph <i>"Genetic Improvement of Native Pentose-fermenting Yeasts for Biomass Conversion"</i>
Nov 8	Kari Dunfield, SES, University of Guelph <i>"Biodiversity and Functioning of Soil Microbial Communities in an Agroecosystem"</i>
Nov 22	Manish Raizada, Department of plant Agriculture, University of Guelph <i>"Sustainable Agriculture Kits (SAKs) to Alleviate Rural Poverty in Developing Nations"</i>
*Dec 6 location TBA	Beth Parker, School of Engineering, University of Guelph <i>"Contaminant Plume Behaviour in Fractured Sedimentary Rocks"</i>
Jan 17	John Lauzon, SES, University of Guelph <i>"How Reductions in Atmospheric Emissions May Result in a Return to Sulphur Fertilization in Ontario"</i>
Jan 31	Madhur Anand, SES, University of Guelph <i>"Forest-grassland Mosaics and Alternative Stable States"</i>
Feb 14	Keith Solomon, SES, University of Guelph <i>"POPs and PBTs, the next challenge"</i>
Feb 28	Rebecca Hallett, SES, University of Guelph <i>"Impact of Invasive Species on Sustainable Agriculture and Pest Management"</i>
Mar 14	Shelley Hunt, SES, University of Guelph <i>"The U of G Arboretum - Past, Present, Future"</i>
Mar 28	Hugh Henry, Department of Biology, Western University <i>"Production and Nutrient Cycling in Temperate Ecosystems: how does winter climate matter"</i>
Apr 11	Ryan Norris, Department of Integrative Biology, University of Guelph <i>"Population Dynamics in Seasonal Environments"</i>
