*"I am but one member of a **vast team** made up of many organizations, officials, thousands of scientists, and millions of farmers - mostly small and humble - who for many years have been fighting a quiet, often times losing war on the food production front."*

Norman Borlaug

We seek advanced undergraduate students whose aim is further their education beyond the B.S. degree and both M.S. and Ph.D. students looking to enter the workplace in less than two years.

Each Borlaug Scholar will be paired with mentors who are members of NAPB and are committed to your professional development.

Each recipient will receive financial support for travel, lodging, and registration expenses for the NAPB Annual Meeting.

BACKGROUND ON BORLAUG SCHOLARS

The program was conceived by Dr. Donn Cummings. He serves as the Scholars Selection Committee Chairman. The 2018 NAPB Annual Meeting is in Guelph, ONT August 7-10.

Applications will be judged on the letter of intent, scholarly achievements, and reference letter. FAQ are addressed in the links provided in this brochure.
